

## Response to Query

### Design and Construction of Greenhouse and Supply of Generator at Top Mountain, St. Andrew

The following constitute the Agricultural Competitiveness Programme Bridging Project response to query regarding the captioned works and will be included as Addendum No. 1 to the Tender Document.

No.	Query	Response
1	<p>Based on specifications attached, your document states that drawings with the tender documents are conceptual. Reference is made to the specification sheet attached and the highlighted paragraph.</p> <p>You stated below that an alternative design to what is in the tender document is not acceptable. Kindly advise.</p>	<p>The drawings presented are “conceptual” in that they reflect what we want the end product to look like; however it is not of a structural design nature, i.e., “structural” design, which would enable the greenhouse to meet the requirements stated in the specification. It should be noted that no size was presented for any of the structural members/support on the drawing. This is to be obtained by your structural engineer after carrying out the requisite design calculations.</p> <p>We therefore modify paragraph 6, page one of the Greenhouse Specification to read:</p> <p style="text-align: center;"><i>”The contractor(s) are expected to design and fabricate greenhouse structures as per drawings and technical specifications provided and undertake construction / erection, alignment and orientation of green houses in accordance with technical specifications provided herein. It should be noted that the attached drawing is conceptual and <b>not of a structural nature</b>, the contractor is responsible for <b>the structural design</b>, alignment and orientation of the proposed greenhouse.”</i></p> <p><b>Kindly note that the deadline for Tender submission remains Friday, January 25, 2019 before 10:00 a.m. at the Box at the Facilities &amp; Property Management Division, Ministry of Industry Commerce Agriculture &amp; Fisheries, Hope Gardens Kingston 6 as stated in the tender document.</b></p>
