

GOVERNMENT OF JAMAICA

SECURING OUR OPPORTUNITIES...STIMULATING SUSTAINABLE GROWTH FOR BIGGER, BETTER, STRONGER INDUSTRIES

MINISTRY OF INDUSTRY, COMMERCE, AGRICULTURE & FISHERIES QUARTERLY PERFORMANCE REVIEW REPORT [APRIL – JUNE 2020]

Foreword

In this report, the Ministry of Industry, Commerce, Agriculture & Fisheries presents its First Quarter Performance Report for the period April to June 2020, against the planned deliverables as reflected in the Ministry's Budget Speeches, 2020/2021 Operational Plan and Strategic Business Plan 2020/2021 – 2023/2024. This Report has been compiled in accordance with the requirements of *Part IV Section 75 of the Financial Administration and Audit Act: The Financial Management Regulations, 2011* to display and promote transparency and accountability to agricultural, fisheries, manufacturing and services stakeholders and the general populace. This reported information will also be utilised to respond to the Ministry's commitments in the achievement of the Economic Growth Agenda "5 in 4" Plan, GOJ's Strategic Priority – *Inclusive Sustainable Growth and Job Creation*; the monitoring of the Medium Term Results Based-Budget Indicators and Jamaica's Vision 2030 Outcomes 8, 9, 11, 12, 13, 14, 15 – *Internationally Competitive Sustainable Industries in the Agricultural, Fisheries, Manufacturing and Service Sectors within an Enabling Business Environment*. This report and other forthcoming quarterly reports will form the basis of the of Ministry's Annual Report, to be compiled at the end of the current financial year.

Ministry's Strategic Priorities Framework

VISION 2030 - National Development Plan

National Goal #3 and #4: Jamaica's Economy is Prosperous & Jamaica has a Healthy Environment

National Outcome #8, 9, 11, 12, 13, 14, 15: Enabling Business Environment, Internationally Competitive Industry Structures:

Agriculture, Manufacturing and Service

Vision

By 2030, Jamaica has achieved innovative, inclusive, sustainable and internationally competitive industries in agriculture, fisheries, manufacturing, and service sectors

Mission

To create an enabling environment which grows and sustains industries in agriculture, fisheries, manufacturing and service sectors; and ensure consumer protection while fostering gender equality and social inclusion in all our policies, programmes and projects.

Mandate

The mandate of MICAF is:

- To **DEVELOP** sustainable food systems by driving local production of primary agricultural produce, livestock and fisheries to widen the supply chain, integrate production up the value chain and foster youth in agriculture and agroentrepreneurship.
- To PROMOTE a lucrative MSME sector that drives productivity and job creation for all regardless of sex, age, socioeconomic status or ability.
- To **REGULATE** towards a modern and efficient business & trade economy within a framework of accountability to all consumers and good governance.

Strategic Priorities (SP)

- 1. Optimize the production and productivity of key local produce and products towards targeted markets with special focus on youth in agriculture
- 2. Increase access of select local industries to emerging and existing markets within a framework of beneficial inclusion of youth, women and micro-enterprises
- Strengthen MSMEs' from agriculture, manufacturing and service sectors contribution to Jamaica's economy
- 4. Build climate-resilient agriculture, fisheries, manufacturing and services sectors
- 5. Improve the ease of doing business to facilitate investment in Jamaica
- 6. Establish the National Quality Infrastructure within the framework of the 2019 National Quality Policy
- 7. Strengthen Agricultural Health and Food Safety Systems
- 8. Strengthen the capacity of Ministry and entities to efficiently and effectively implement policies, programmes and projects

Strategic Objectives (SO)

The Ministry within the medium-term framework of the Ministry's policy priorities (end of FY 2023/2024), the Ministry will seek:

- To increase, by 10% annually, the output of agriculture and fisheries resources, including value-added production.
- 2. To increase, by 20%, the application of appropriate technology by Jamaican MSMEs
- To develop and implement supporting policy, legal and planning frameworks that will protect agricultural lands, aquatic ecosystems, plant genetic resources, livestock genetic resources, fisheries resources, Jamaican brand, consumers and local businesses
- 4. To facilitate an increase in access to markets for Jamaican products.
- 5. To develop and begin implementation of action plans of at least four (4) key industries in agriculture, fisheries, manufacturing, and/or service sectors within the next four years.
- 6. To increase, by 10%, the access of Jamaican Micro, Small, and Medium Enterprises (MSMEs) to adequate infrastructure, finance and support services by 2024
- 7. To have at least 30% of beneficiaries into MICAF's programmes be youth, women, and persons with disability, micro enterprises or any vulnerable group from the agriculture, fisheries, manufacturing and/or service sectors.
- 8. To contribute at least 15% to the national investment target including an increase in export production.
- To reduce the incidence of select pests, diseases, food borne pathogens for targeted crops and livestock and food products
- 10. To allocate and optimally use human and financial resources based on agreed National and Ministry's strategic priorities.

1. Executive Summary

1.1 Overview

The Ministry of Industry, Commerce, Agriculture and Fisheries (MICAF) as its role as the driver of industry development in the agriculture, fisheries, manufacturing and service sectors, must ensure local industries not only survive the impact of COVID-19 but grasp the opportunities to strengthen both the value and supply chains within Jamaica. Central to this view is the Ministry's additional role as the facilitator for MSME development and trade.

MICAF received approved estimates for FY2020/21 was **\$15.6B**, which was a **9% increase** from FY2019/20. MICAF intended to use these increases in select initiatives to support the DRIVE for GROWTH in the MSME sector specifically in agriculture through

- I. Production Incentive Programme
- II. Farm Roads Rehabilitation Programme
- III. Export Max for MSMEs
- IV. SBDC Expansion for increase business development support to MSMEs across the island
- V. Pest surveillance and prevention
- VI. Fisheries Development
- VII. Transformation of MICAF's Division and Agencies

The above supported the implementation of the Ministry's **eight (8) medium strategic priorities** under its **five** (5) budget programmes and **eleven (11) public investment projects**.

With the advent of the impacts of COVID-19, the Ministry revisited its eight (8) medium term strategic priorities and investigated its targets under its five (5) budget programmes and eleven (11) public investment projects to implement revised and/or new initiatives geared towards this new economic landscape. Key to this landscape was food security and sustainability and adaptability of local MSMEs. This led to one new main initiative namely "Stimulus package in Response to COVID-19 for Agriculture". This initiative started in March 2019 and continued into FY2020/21 with a budget of one billion dollars (\$1B).

For the 1st quarter, the Ministry was able to fully implement its "buy-back" activity under the new initiative in the amount of \$120M where over 30,000 farmers' livelihoods were secured through the purchasing and distributing of excess produce across the island. This excess was caused by the unprecedented lockdown of their main market - Hotels and Restaurant Sector. Other activities under this initiative include

- Egg subsidy of \$6.6M
- Provision of storage for pork and administrative support valuing \$4M
- Support for increased agro-processing including promoting alternative inputs for agro-processing products such as use of excess tomatoes for juices valuing \$2.5M
- Production incentive of \$52M which included distribution of fertilizer, seeds and chemicals. This will
 ensue continued production for national food security
- Provision of personal protective equipment and sanitizing agents valuing \$9M

- Redistribution of \$12.6M of produce donated to quarantined communities in Bull Bay, Clarendon and St. Mary via Ministry of Labour and Social Security
- Drought mitigation measures valuing \$24M for trucking of water by the National Irrigation
 Commission

Parallel to the infusion of the \$1B geared towards COVID-19 response, the Ministry's recurrent and capital budget was reduced to \$12.5M (a 5.3% decrease) and \$2.25M (a 36% decrease) respectively. This led to a new budget of \$14.8B (5% decrease).

It is under this new budget, the Ministry revised its FY2020/21 targets of its sixty (60) initiatives that fall under five (5) programmes:

- 1. Executive Direction and Administration (#001)
- 2. Agricultural Production, Productivity and Food Security (#181)
- 3. Industrial Development and Regulation (#182)
- 4. Consumer and Public Protection (#183)
- 5. Trade Development and Promotion (#184)

This report will focus on the achievement of these targets. The Ministry will be doing an in-depth analysis in the second quarter on the impact of these changes on the successful implementation of MICAF's eight (8) medium term priorities:

- 1. Optimize the production and productivity of key local produce and products towards targeted markets with special focus on youth in agriculture
- 2. Increase access of select local industries to emerging and existing markets within a framework of beneficial inclusion of youth, women and micro-enterprises
- 3. Strengthen MSMEs' from agriculture, manufacturing and service sectors contribution to Jamaica's economy
- 4. Build climate-resilient agriculture, fisheries, manufacturing and services sectors
- 5. Improve the ease of doing business to facilitate investment in Jamaica
- 6. Establish the National Quality Infrastructure within the framework of the 2019 National Quality Policy
- 7. Strengthen Agricultural Health and Food Safety Systems
- 8. Strengthen the capacity of Ministry and entities to efficiently and effectively implement policies, programmes and projects

The Ministry's thirty (31) Divisions, one (1) Department and thirty-one (31) Agencies along with its projects (see Appendix 1 implementing structures) seek to implement these strategic priorities within the ambit of MICAF's mandate.

As at June 30, 2020, the Ministry expended 23% of its budget with an expenditure of 9% for capital projects. This underspending by capital projects is understandable since most 1st quarter activities began in June 2020. Regardless of this set-back, MICAF's projects are poised to ramp-up activities and expenditure in the second quarter. The Ministry was able to be ON-target for twenty-five (25) of the thirty –two (32) targeted key performance indicators. The remaining indicators lacked the sufficient data needed to determine its performance and/or COVID-19 impacted operations of the main implementing entities. This inability to access

certain data especially for the MSME sector has led to a deficiency in evaluating MICAF's true impact on MSME development. A revision of indicators and targets (via proxies) will be used for the short term while a more medium term solution will be adapted including creation of data collection systems. Similarly, mitigation measures are being put in place to address the impact COVID-19 has on key operations and the success of these measures should lead to achievement of all revised annual targets.

For the 1st Quarter for FY2020/21, the *Executive Direction and Administration programme* consists of MICAF's support services; planning, policy and legislation initiatives and the praedial larceny prevention and coordination initiative. The Programme expended \$463.55M that represents 18% of its revised annual budget. It has two sub-programmes namely (1) *Central Administration* and (2) *Policy, Planning and Development*. Of the 25 indicators under the Programme, *twenty* (20) were ON TARGET. Some of the constraints that contributed to these targets being OFF TRACK included the lack of budgetary support, lack of staff engagement, ICT deficiencies and other restraints, all of which exacerbated by the Covid-19 pandemic.

The overall performance of the development of the Ministry's policy, legislatve and planning framework was **ON TRACK**. Under the Ministry's legislative programme, the top three (3) legislation under the Government of Jamaica (GOJ) Priority programme submitted to the Cabinet Office are as follows:

- Enactment of the Agro-Investment Corporation (Amendment) Bill
- Enactment of the Companies (Amendment) Bill
- Enactment of the Trademarks (Amendment) Bill

The Ministry will also seek to advance its twenty-nine (29) legislations (see Appendix) targeted for the medium term. For this quarter, the Ministry was able to promulgate the Order under the Trade Act entitled "The Trade (Sale of Goods During Period of Declaration of Disaster Area) Order, 2020". This Order was enacted in response to "Price Gouging" and to ensure the protection of consumers during period of emergency or disasters in Jamaica. In addition, (1) the advancement of the Trademark (Amendment) Act to the Legislation Committee of Parliament; and (2) the advancement of the Agro-Investment Corporation Act (Ammenment) Act and Tobacco Industry Regulation (Validation and Indemnity) (Repeal) Act submitted to Ministry of Finance for comments are ON TRACK. Similarily. Completion of draft Cabinet Submissions to amend the Companies Act; the Agricultural Produce Act; Repeal and Replacement of the Plants (Quarantine) Act with a new Act; Animals (Diseases and Importation) (Change of Name and Amendment) Bill; and Veterinary (Amendment) Bill are ON TRACK. The 2019 Draft Regulations, namely: The Fishing Industry (Amendment) Regulations, The Fishing Industry (Conservation of Conch (Genus Strombus)) (Amendment) Regulations and The Fishing Industry (Spiny Lobster) (Amendment) Regulations are OFF TRACK. The major constraints to this initiative is stakeholder engagement. In light of the Covid-19 Pandemic, the Legal Department will seek to interact with stakeholders by utilization online platforms for communication. This is in order to minimize delays in feedback from Stakeholders and importantly to ensure that the end of year targets are achieved.

For the medium term, MICAF will be targeting nine (9) policies, they are (1) National Youth in Agriculture Policy and Implementation Plan (NYIP); (2) National Organic Agriculture Policy and Implementation Plan (NOP); (3) National Services Policy and Implementation Plan (NSP), (4) National Seed Policy and Action Plan (NSAP); (5) National Quality Policy (NQP), (6) National Craft Policy (NCP); (1) National Consumer Policy(NCOP); (8) Medical

Cannabis Industry Policy (NMCIP) and (9) National Investment Policy (NIP). In FY2020/21, it is expected that these policies will be varying stages of development and implementation. For this quarter, the Ministry has begun the implementation of the National Craft Policy and National Quality Policy. Parallel to this, the Ministry was successful in receiving Cabinet Approval for the National Investment Policy as a green paper. The National Quality Policy is expected to be launched in the second quarter. MICAF development programme is **ON TRACK** but the success of the implementation of select policies will not become clear until after the second quarter.

Additionally, the Ministry will be targeting four (4) new and emerging industries namely castor beans, sea island cotton, cannabis, and bamboo. This quarter, MICAF explored the development of a bamboo value chain for the local industry to supplement the 2019 Bamboo Development Plan; finalized the Terms of Reference of a Cannabis Industry Development Taskforce and completed a first draft of a Medicinal Cannabis Industry Policy Concept Paper. A key achievement is the cabinet approval of the 5 year Manufacturing Strategy developed under a private-public partnerships.

In addition, the new initiative in response to COVID-19 is funded under the Executive Direction and Administration programme. This initiative is ON-TRACK and is expected to ensure the achievement of targets under the Agricultural Production, Productivity and Food Security Programme which focus on sustainable agricultural production to meet targeted markets – domestic, exports, schools and niche markets.

The Agricultural Production, Productivity and Food Security Programme has eight (8) sub-programmes with nine (9) of the eleven (11) public investment projects. It was granted a revised budget of \$7.8B and \$2.1B for recurrent and capital projects respectively. As at June 30, 2020, MICAF expended 24% and 8% of its recurrent budget and capital project budgets respectively. The overall performance of this programme is mixed but the main constraints stemmed from the impact of COVID-19 from the reduction in budget to carry out activities to the inability to meet stakeholders due to lockdowns.

The *Agricultural Health and Food Safety sub-programme* reflected an expenditure of \$ 226.03M that represents 20% of its revised recurrent budget. Of the 23 targets set for this quarter, 12 were ON TARGET. Constraints which affected the sub-programme included; delays in procurement, lack of policy and legislation to protect agricultural lands and insufficient funding for projects, namely, the Frosty Pod Rot Programme. Due to the insufficient funding, the Frosty Pod Rot Programme activities will be suspended. This may lead to the resurgence of the disease and loss of the gains made to the cocoa sector. The canine detection initiative was also suspended due to the impact of COVID-19 on our key partners in South America.

The *Fisheries Development sub-programme* has an expenditure of \$64M representing 23% of the budget. National Fisheries Authority, the main implementing entity, currently has all indicators for this quarter **ON TRACK**. However, the Promoting Community Based Climate Fisheries Resilience Project (PCBCFRP) under this sub-programme had several constraints. These included variance in the budget, unavailability of local firms to conduct consultant services as well as delays in the completion of the surveys. As a direct result, all active contracts under the Project have been extended by 3-4 months.

The *Irrigation Services sub-programme* had a subdued performance as procurement and consultancies were stymied during the first quarter for various projects geared towards the enhancing the ability of the National Irrigation Commission's ability to deliver water efficiently. Fortunately, both key performance indicators – revenue from sales and hectares of land with irrigation - both exceeded quarter targets.

Key Performance Indicators associated with the *Agricultural Extension Services sub-programme* were also limited due to the COVID-19 slowdown – most notably seen in the numbers of farm field school trainings. The Production Incentive Programme, and the Competitive Products Programme (onion, Irish potato and strawberry production development) annual targets were not significantly dented as the first quarter is generally a period of preparation; these includes, land preparation and securing of planting material for crops under these programmes.

The operations of the *Management of Public Gardens and Zoos* were significantly curtailed due to the stipulations of the Government aimed at reducing the spread at Covid 19. As such key performance indicators such as The AIA from plant sales, propagation and visits were severely affected as a result of the closure of the parks and gardens. The revised targets and operational strategies (akin to the revisions of the GOJ and MoH) will yield improved performance for the upcoming quarter. Notwithstanding the quarter performance showed that, 693 plants were sold and 573 persons visited the gardens and 3 rental agreements were established.

The **Youth Agriculture and Entrepreneurship Development sub-programme** has seen several of its targets reduced due the COVID 19 pandemic. Given the challenges posed by the pandemic, the Jamaica 4-H Clubs implemented the Family Backyard Garden Initiative as a strategy to intensify and strengthen subsistence farming to improve food production and security. Vegetable seeds were distributed to clubites across the island to support this activity. As a result of the limited face to face interaction, a number of training videos were created as a risk response to the training initiative.

The *Agro-Industry Development sub-programme* saw its major highlights as it related to production increases, as there was a boom in production of crops within the Agro-Parks. In contrast, the Banana Board and Coconut Industry Board saw a reduction in production numbers for plantains and coconuts produced in the quarter. On the positive side, there were no traces of the Tropical Race 4 (TR4) disease detected. Activities for communication, border security, farm bio-security, diagnostic and surveillance are on-going. The Cannabis Licensing Authority registered sixteen (16) conditional approvals for applications against the twenty-five (25) targeted for the quarter; Import-Export permits issued have been stalled as The Dangerous Drugs (Cannabis Import and Export Licensing) Regulations has not been promulgated. Therefore, permits are not being issued.

The *Industrial Development and Regulation Programme* was granted a revised budget of \$992.7M of which a total of \$227.73M was expended, representing a 23% of the allocated sum. This Programme is geared towards the development of MSMEs; promotion of entrepeneurship and the strengthening of regulatory and compliance activities which would provide an enabling environment for industrial development. This programme consists of two sub programmes; they are MSME development and Business [and Credit Defence] Protection. MSME development performed well despite the challenges presented as a result of Covid 19. The Jamaica Business Development Commission, main implementer of Business Development and Support services, served over 3,674 clients via online platforms, representing a 53% increase when compared to the

quarter under review (1,694). A total of 2,037 consultation hours were provided to clients during the quarter. This represents a 30% increase when compared to the corresponding review period. Forty-seven (47) jobs were created by MSMEs during the quarter, a 36% increase when compared to the corresponding period in 2019. The overall performance of JBDC showed the entity's resilience to shocks with clearly defined risk profiles and the implementation of very effective risk response strategies. It is important to note that there were no adjustments to this main inititaive's targets even though the operating environment proved daunting as a result of the pandemic. The other initiatives under this sub-programme and the Business [and credit defence] protection sub-programme experienced the harsh realities of the pandemic and had the need to make modification to their overall targets. Even with the new changes, some targets were unmet; notwithstanding, achievements were made in key areas. The overall performance of the programme reflected that despite Covid 19, opportunities were abound and efforts were made to quickly take advantage. For the Business [and Credit Sector Defense] Protection, the Office of the Supervisor of Insolvency (OSI), the Office of the Government Trustee and the Jamaica Intellectual Property Office (JIPO) weathered the storm with slightly below targets for a few of their key performance indicators.

The **Consumer and Public Protection Programme** comprises of (1) Protection of Consumer Rights and (2) the Regulation of Nuclear Technologies. A budget of **\$287.1M** was allocated to this programme which is geared towards monitoring commerce and trade, protect and empower both consumers and corporate entities, and ensure the protection of the overall public against misuse and improper disposal of nuclear technologies. Of the allotted amount a total of **\$72.8M** (25%) has been expended. The Fair Trading Commission (FTC) and the Consumer Affairs Commission plays an instrumental role in the protection of Consumers. These entities sought to encourage businesses and consumers to report misleading advertising, and excessive pricing. During the outbreak of the pandemic these entities were forced to strengthen the monitoring of product markets; enforcement activities and competition and consumer advocacy. Their performance showed that efforts from these entities sought to stabilize the economy with:

- 14 Price Surveys published
- 634 complaints handled
- 321 Broadcast media and 17 print media exposures aimed and increasing public awareness

The Hazard Substances Regulatory Authority (HSRA), the main implementing entitity of the *Regulation For Nuclear Technologies Sub-Programme*, continues to build out its inspection services initiative. The COVID-19 has impacted its sensitization, monitoring and compliance activities including finding appropriate office space and filling critical posts. The Authority is increasing its remote engagements and continues to review its organizational chart for greater efficiency. It is expected that the revised targets will be met.

The *Trade Development and Promotion Programme expended \$243.M and 29.495M* which is 25% and 17% of revised recurrent budget and capital project budget respectively. The Programme demonstrated strong signs of resilience in light of the economic slowdown caused by COVID-19. The policy and regulatory activities under this programme achieved most of its targets and in some cases surpassed the planned target – most notably the Trade Board Limited, main implementor of the *Regulation of Trade* initiative, exceeding the number of new Jamaican products analyzed for new markets and expanded. The Trade Unit, main implementor of the

trade advocacy initiative and overseer of the National Trade Facilitation programme continued to enhance the trade facilitation capacity of Jamaica through various trade agreements including the United Kingdom Trade Partnership (UKTP) Project which was negotiated to support export ready Jamaican firms to penetrate UK and European markets.

Conversely, *Invest promotion sub-programme's* key performance indicators were significantly affected as all targets suffered under the economic slowdown. The *Global Services Skills Project (GSS)* achieved many of its administrative and operational targets. It is hoped that achievement of these targets will lead to tangible effects on the job opportunities in the local economy.

Jamaica National Agency for Accreditation (JANAAC) is one of the main entities under the Ministry's National Quality Initiative and a cornerstone for increased trade. Revenues to date are \$22.62M which is \$13.46M (34%) below the revised target. Despite, these challenges JANAAC was able to achieve its training target of 25 persons for the 1st quarter with revenue gains of \$575,000. JANAAC will focus on greater integration of remote assessments for accreditation clients and where possible deliver virtual training training programmes to clients (domestic and regional).

The Ministry continues to develop and implement inititalities to fulfil our mandate to facilitate the creation of inclusive, sustainable and internationally competitive industries in agriculture, fisheries, manufacturing and service sectors. With this in mind, the Ministry has added two additional projects on its rooster:

- 1. Export Max III
- 2. Essential Oils Incubator Project

Both projects were approved by PIMSEC and the Ministry is laying the groundwork for full implemnetation withing FY2020/21.

Overall the Ministry expects to achieve all the revised annual targets.

1.2 Summary Performance of the Ministry's Programmes

The Ministry has **five (5) programmes** and **sixteen (16) sub-programmes** with **thirty-two (32)** key performance indicators (KPIs):

| | Programme & Budget No. | Key Performance Indictor | STATUS |
|----|---|--|-----------------|
| | | - | APRIL-JUNE 2020 |
| 1. | Executive Direction and Administration (#001) | Customer satisfaction and retention (customer service rating) | ON |
| | | % of institutions or processes that have received international certification or accreditation | OFF |
| | | Extent to which the programmes, projects and policies being implemented have had the desired impact on target population | ON |
| | | Expenditure as a percentage of budget | ON |
| 2. | Agricultural Production, Productivity and Food Security | % increase in agricultural production to meet targeted markets | ON |
| | (#181) | % decrease in select products on the food import bill | ON |
| | | % contribution of fisheries industry to GDP | ON |
| | | # of agricultural enterprises using IP legislations to access markets | OFF |
| | | % arable lands in agricultural production | ON |
| | | % of youths trained/benefitting from intervention that remain in agriculture/agribusiness | ON |
| | | # of agro-parks and agro-zones established and operational | ON |
| | | % increase in export of crops (new & traditional) | ON |
| | | % reduction/maintenance of select pests, diseases & pathogens in plant, animal and/or food | ON |
| 3. | Industrial Development and Regulation (#182) | # of supported MSMEs achieving 5% growth or more | ON |
| | | % of MSMEs accessing financing | OFF |
| | | % increase in absolute contribution of local industries in growth and job creation | ON |
| | | Global Competitiveness Score | ON |

| | | Time and cost taken to export | ON |
| | | Value of export sales | ON |
| | | Number of jobs created | OFF |
| | | Rank level in select categories in the ease of doing business Index | ON |

MICAF is on track for **25 out of 32** of the outcome indicators. This was possible due to quick response to the impacts of COVID-19 on the operations of the Ministry and its entities including moving stakeholder engagement in the electronic sphere. We are still developing data systems for indicators on MSME Development. The Off targets are impacted by funding and need for more consultations.

It was noted that implementation of some key initiatives in 2020/21 including certification and accreditation will be ramped up in the following quarters.

1.3 Summary of Expenditure Report

The approved budget for 2020/21 for both Capital and Recurrent heads of expenditure for MICAF was \$15.6B which is an overall 12% increase above the revised estimates of 2019/20 (\$13.9M) and 9% above the budget ceiling, but a decrease of 29% from the necessary budget to implement ongoing and new priority initiatives. MICAF intended to use these increases in select initiatives to support the DRIVE for GROWTH in the MSME sector specifically in agriculture through

- I. Production Incentive Programme
- II. Farm Roads Rehabilitation Programme
- III. Export Max for MSMEs
- IV. SBDC Expansion for increase business development support to MSMEs across the island
- V. Pest surveillance and prevention
- VI. Fisheries Development
- VII. Transformation of MICAF's Division and Agencies

The above supported the implementation of the Ministry's eight (8) medium strategic priorities under its five (5) budget programmes and eleven (11) public investment projects.

With the advent of the country's response to COVID-19, a supplemental budget was approved for \$1B, however the first supplementary estimates saw an overall decrease of \$561 M (5.2% decrease) on existing Recurrent programmes, and \$1.272B (36% decrease) on Capital projects resulting in a revised Estimate of \$14.78M

Summary of Budget

| | А | pproved 2020/2 | 21 | Revised 2020/21 (1 st sup) | | | | | |
|-----------|------------------------------------|---------------------------|-------------------------------|---------------------------------------|-----------------------------|-------------------------------|------------------------------------|-----------------|--|
| HEAD | Approved Budget (incl. AIA) \$'000 | AIA Provisions'o oo | Net (AIA) Budget \$'000 | Revised Budget \$'000 | AIA Provisio n \$'000 | Net (AIA) Budget \$'ooo | Increase/ Decrease in Budget | % Chang e | |
| Recurrent | 12,097,575 | 1,435,751 | 10,661,824 | 12,536,543 | 1,435,751 | 11,100,79 2 | 438,968 | 4% | |
| Capital | 3,519,016 | 0.0 | 3,519,016 | 2,246,875 | 0.0 | 2,246,875 | (1,272,141) | (36%) | |
| Totals | 15,616,591 | 1,435,751 | 14,180,840 | 14,783,418 | 1,435,751 | 13,347,667 | (833,173) | (5%) | |

Expenditure Summary

As at June 2020, 23% and 9% of the approved budget was utilised for the Recurrent and Capital heads respectively. Approximately, 90% of recurrent revenue inflow, Warrant and Appropriations-in-Aid combined, has been committed or expended. The Capital Head has committed or expended 45% of its revenue inflow.

For the Quarter to date available funding was approximately \$3.718B of which \$3.544B was funded from the Consolidated Fund and \$173.306M earned from Appropriations-in-Aid. Approximately 84% of all funding received was utilised for all Heads of Estimates.

| HEAD | Approved/Revised Budget | Funding received (Warrant & AIA) | Expenditure & Commitments (April to June) | Expenditure to Warrant/ AIA Ratio | Budget Utilization Rate |
|-----------|----------------------------|-------------------------------------|---|---|-------------------------------|
| | \$'000 | \$'000 | \$'000 | % | % |
| Recurrent | 12,536,543 | 3,269,794 | 2,931,355 | 90% | 23% |
| Capital | 2,246,875 | 447,889 | 200,581 | 45% | 9% |
| Total | 14,783,418 | 3,717,683 | 3,131,936 | 84% | 21% |

Appropriations In Aid (AIA)

The AIA collection rate was 12% at the end of QTR 1 – June 2020.

| Head | AIA Budget | AIA Collections (April to June) | AIA Collection Rate |
|-----------|------------|------------------------------------|---------------------|
| | \$'000 | \$'000 | % |
| Recurrent | 1,435,751 | 173,306 | 12% |

See Appendix for full 1st quarter expenditure report

2. MICAF's Main Initiatives for FY2020/21

Given the Ministry's and GOJ's strategic priorities, the Economic Growth Agenda "5 in 4" Plan, the National Vision 2030 MTF 2018 -2021, COVID-19 Response and the current state of the agricultural, fisheries, manufacturing and service sectors, MICAF will implement its **eight (8) medium term priorities** through **five (5) programmes** and **seventeen (17) sub-programmes** under **sixty (60) main initiatives**:

2.1 Executive Direction and Administration

The Executive Direction and Administration Programme aims to strengthen strategic management across the Ministry of Industry, Commerce, Agriculture and Fisheries in order to enhance governance, management, coordination, integrity and allocation of public resources. The Programme, which reinforces the principles of continuous performance improvement and the enhancement of organisational productivity, commands effective strategic management by the executive in directing effective policy implementation and adoption; planning; operations management and linking operational and tactical decisions. Through this programme, the executive controls and directs people and resources to deliver organisational objectives and results in a cost-efficient way with due regard to risks and opportunities, as well as the creation of public value. The programme is therefore driven by effectiveness in the implementation of key policies, plans and projects, supported by robust systems, processes and procedures that ensure that the organisation is satisfactorily progressing towards the achievement of its mission, goals and strategic objectives. A key tenet of the programme is also the evaluation of outcomes to assess the relevance, feasibility, effectiveness and consistency of the organisational strategy that informs how effectively resources are being utilised to produce desired results.

PROGRAMME OBJECTIVE: To improve the effectiveness of the implementation of key policies, projects

and administrative services that support organisational strategies to advance the

achievement of the organisation's goals and objectives.

SUB-PROGRAMME: (1) Central Direction

(2) Policy, Planning and Development

Constraints:

 Some difficulty is being experienced with setting-up meetings of the planned transformation projects with respect to availability of meeting rooms and Committee Leads. This has created some delays.

¹ Completed Stage 1 and recommended for Stage 2 Certification Audit by NCBJ

| 1 | Intended Results | Performance Indicator | Annual Target | April – June 2020 | Quarter Performance |
|---|------------------|-----------------------|------------------|----------------------|------------------------|
| | | | | Target | |

- There is no designated budget for the Modernization Programme and this will have serious implications for the effective implementation of the transformation projects.
- The required resources for ICT have not been funded by the GOJ for several years now. This has implications for connectivity and secure monitoring of ICT resources
- Glitches in accounting software GFMS and the need to correct of errors
- Discrepancies with submission requiring revision

Mitigating Measures:

- Software owners advised of issues
- Training for staff to reduce incidence of adjustment errors

| | | | | OFF |

Constraints:

- Challenges in receiving adequate/sufficient 'buy in' from some Heads and staff of Divisions/Units/Branches at MICAF, hence line staff does not recognize the importance of being fully engaged in pre-certification activities.
- A 'bottleneck' is also created when SOPs are developed but not approved, reviewed for implementation in current daily activities.
- COVID-19 pandemic is has affect many of the scheduled activities of the sub-programme

Mitigating Measures:

- Subscription to a virtual Service Provider in a package being promoted and offered by MICAF's ICT Division (Business Plan with a minimum of 10 hosts). This would allow for the ISO technical team members to convene and conduct virtual meetings, training sessions, hand holding sessions and virtual internal audits as required.
- Anticipating the availability of MICAF's Senior Management Team for ISO Quality Steering Committee (QSC) virtual Meetings when convened, so that the planned phases for ISO Implementation at MICAF can be completed, to ensure readiness for ISO 9001:2015 QMS Certification by NCBJ within 2020-2021.
- The convening of a second (virtual) meeting has been requested of the PS with the ISO QSC, which is proposed for July 2020 at which MICAF's ISO 9001:2015 QMS Scope will be finalized from a draft prepared by ISO QSD. The Terms of References for the ISO 9001:2015 Committees: (a) Quality Steering Committee (QSC); (b) Project Management Implementation Committee (PMIC); and (c) Technical Working Group (TWG), will be outlined at this meeting.
- A series of remotely held and physical Workshops/Training sessions will be convened for MICAF and MDAs, to 'fast track' implementation of ISO 9001: 2015 QMS activities.
- Efforts were made to have public education activities held virtually.

2.2 Agricultural Production, Productivity and Food Security

The Ministry recognizes that to optimize production and productivity across the agriculture, manufacturing and service sector, implementation of market-driven research for select industries should be prioritize and given concentrated funding.

The agricultural production, productivity and food security programme focuses on the increase in domestic production (food and nutrition security); export production (tourism, diaspora and CARICOM), targeted niche markets and industrial production (local inputs to manufacturing) through research, access to finance; access to key infrastructure such as irrigated lands, processing facilities and farm roads; marketing information, training in good agricultural and manufacturing practices, incentives and the formation of public-private partnerships. It is the promotion of the production and productivity of select crops/livestock which are categorized in terms of their value-added and export potential, import substitution and commodity profile within the context of adaptability to climate smart management and agronomic practices.

PROGRAMME OBJECTIVE: To increase agricultural production by at least 15% to meet domestic, export and manufacturing

input demand by 2024

SUB-PROGRAMME: (1) Agricultural Health and Food Safety

(2) Agricultural Research & Development

(3) Irrigation Services

(4) Fisheries Development

(5) Agricultural Extension Service

(6) Management of Zoos and Gardens

(7) Youth in Agriculture and Entrepreneurship

(8) Agro-Industry

BUDGET: \$7.8B (Recurrent) **EXPENDITURE TO DATE:** \$1.9B (24%) \$171.1M (8%)

| Constraints | 1 | | 1 | ' | | | | | |

Constraints:

- Lengthy procurement process delays execution of Branch activities
- Inadequate Human Resources affected the efficient execution of activities.
- The lengthened procurement process for the Frosty Pod Rot Project items and a delay in awarding the Pruning and Stripping Contract for the Frosty Pod Rot Management Project caused a delay in the implementation of management strategies.
- Insufficient skilled Contractual Workers for the Frosty Pod Rot Project also presented a delay in implementing the

| | | Indicator | | Target | Performance | |
| ſ | | | | | | |

management strategies for the disease

- Lack of policy and legislation to protect agricultural lands
- Some activities were hampered by the Covid-19 Pandemic

Mitigation measures:

- Collaboration with other MDA in implementation of projects
- Technical assistance from external agencies
- Training and development of existing staff
- Increase public awareness on the importance of sustainable land management for agricultural development
- Enhancement of early warning system to detect any potential threat of entry of exotic disease in an effort to be able to apply emergency measures upon detection of any disease.
- Continued heightened surveillance activities due to the on-going global threat of African Swine Fever (ASF). The VSD continues to be on high alert and has heightened surveillance both at ports of entry and at the field level. As well as, continuing to work along with its stakeholders to increase public awareness about the disease and safeguard measures need to minimize the risk of entry into Jamaica.

Constraints:

- 1. Approved budgeted expenditure for 2020/21 of \$87M will be short by \$15.898M to complete obligations under the Contract due to delays in payment from the 2019/20 Budget allocation. The Permanent Secretary of MICAF and the MOFPS was advised and justification document written and submitted outlining the implications including the fact that the Terminal Disbursement date for the loan expires on December 30, 2020.
- 2. Project delivery impacted due to Covid19 pandemic. Scheduled revised and contract amendment for the extension of the contract by one (1) month approved by MICAF and CDB and signed off by RINA. Document on its way to Jamaica for execution by MICAF. Additionally, use of local back stoppers to provide on the ground information to international key experts, along with collecting information using more technology employed to complete work within established timelines.
- 3. Local Project Manager hired June 1, 2020 to supervise the Consultants to and ensure project delivery within the stipulated timelines and at the expected quality standards.
- 4. Clustering and marketing activities were halted due to the Corona Virus pandemic. Commencement and roll-out of Tariff Study and Capacity Building Programme were not halted but also affected by the pandemic as some tasks must be done remotely. In an effort to mitigate the impact of the pandemic, the PEU facilitated remote online working by consultants and deferred and included the remaining clustering training under the RADA MOU.

Constraints:

Following a reduction in the approved budgetary allocations for travelling and subsistence during the last Financial Year (2019/ 2020) and a further decrease for this Financial Year 2020/2021 of J\$22.5M, it is to be noted that from our initial assessments, the activities of the technical/extension staff will be negatively impacted. This reality is quite unfortunate especially during this pandemic where officers are required to do additional work in providing technical and logistical support to take off the excessive produce from farmers likewise to mobilize farmers in getting them back into production. Serious interventions are necessary at the Board and Ministerial level at this time to address the shortfalls mentioned.

A decrease in the budget allocation with 70% being it approved. The Division will seek to maintain its AIA budget of \$3M with the increase of plant, soil sales, rental agreements and maintenance services.

There is the need for a nursery facility retrofitted with the requisite amenities to drive production and achieve the Division's targets. Executive management has approved funding of the said facility and the Division is awaiting finalization by the Chief Technical Director

As a result of Covid 19 and the government measures to contain the disease a number of the Jamaica 4-H Club's planned events were cancelled including our National Achievement Day and some 80th Anniversary Celebration activities.

- Given the challenges posed by Covid 19 the Jamaica 4-H Clubs has implemented the Family Backyard Garden Initiative. Vegetable seeds were distributed to clubbites across the Island to support this activity.
- As a result of the limited face to face interaction a number of training videos were created and uploaded to facilitate online training opportunities for members.
- The organisation's Key Performance Targets of Registration and Training were revised downwards from 110,000 and 220,000 to 80,000 and 160,000 respectively.

ACPBP

• Reduced budget resulting in the limitation of the execution of activities and in some instances the cancellation of activities due for implementation in this financial year.

<u>AIC</u>

- Increase demand for irrigation water due to increased production on public and private land in Ebony Park/Spring
 Plain
- Delay in the transfer of SCJH lands to Agro Invest for Plantain Garden River (PGR) expansion
- Lack of irrigated lands, cattle damage, and poor road conditions affecting production in PGR Agro Park
- Poor access to roadways
- Insufficient equipment such as plough and harrow
- Transportation needed to move tractor and equipment across Agro Parks to lower the cost of production
- The business process at NIC head office is too lengthy for farmers to receive farm gate water.
- Praedial Larceny is increasing
- There is a shortage of planting material (Seedling).

Mitigation measures:

<u>ACPBP</u>

• The ACPBP will continue to engage in the procurement of said identified activities but will not contract unless funding is identified in the supplementary budget.

| Intended | Performance Indicator | Annual Target | April – June | Quarter |
|----------|-----------------------|---------------|--------------|-------------|
| Results | | | 2020 | Performance |
| | | | Target | |

<u>AIC</u>

- Utilize marginal land for low input crops eg. Castor beans
- Increase the number of Wells to increase water access
- Remove non-performers from the Agro Parks
- Clear drain and access ways by grading and shingling roads in the Agro Parks
- Capital budget required to offset /mitigate issues mentioned
- Increase land preparation in the "dry season"
- Rental or purchase of equipment such as Flatbed Truck is required

2.3 Industrial Development and Regulation

The Industrial Development and Regulation Programme seek to improve and streamline business facilitation, local industry development and expansion for manufacturers, producers, service providers and MSMEs. This encompasses activities for MSME development, including business development and advisory services, entrepreneurship, finance and business environment reform, social enterprises, and youth, gender and the incapacitated in business. MSMEs represent the main source of new business start-ups with the potential to contribute to economic growth, employment and innovation. MICAF will be taking the necessary steps to develop capacities of MSMEs to improve the channels through which they will be better positioned to participate in economic activities. Adequate financing opportunities along with training forms the core pillars to auger sustainable growth in this Programme.

PROGRAMME OBJECTIVE:

To increase by at least 5% the contribution of local industries to Gross Domestic

Product by 2024

SUB-PROGRAMME:

(1) MSME Development

(2) Business [and Credit Defence] Protection

BUDGET: \$992.65M (Recurrent) EXPENDITURE TO DATE: \$227.73 (23%)

 $^{^{\}rm 6}$ The target was not met mainly due to the impact of the COVID-19 pandemic.

⁷ The targeted sum of financial support to MSMEs includes the commitment made to JAMPRO to provide support of J\$5M (J\$3M in cash and J\$2M in-kind) per year in support of the Export Max III Programme. The BSJ has decided to provide the J\$2M in kind support in form of discounts on the costs of some services to the programme's beneficiaries. The quarterly target also includes the commitment made under MOUs with JAPA, JBDC and JMEA to provide discounts on selected services. The variance in actual performance is due to the fact that has been some delay in the full implementation of the Export Max III Programme due to the COVID-19 pandemic. As a result, while discounts have been provided to 3 beneficiaries, no cash transfer has been made to date.

Advent of COVID resulted in the following for JBDC:

- Postponement of the Small Business Exposition and other training sessions offered by JBDC.
- Full and partial closure of the Things Jamaican Stores. This resulted in the decrease in revenue for a number of MSMEs (suppliers).
- Training and development plans have been put on hold, due to the rippling effects of COVID-19.

Issue 1: Some unbudgeted expenditures were made during the quarter mainly due to the impact of the COVID-19 pandemic.

EXIIM Bank had the following issues:

- 1. No strategic funding model for the Bank.
- 2. Diminishing pool of loanable funds.
- 3. The cost of capital impedes lending at competitive rates.
- 4. Fluctuating exchange rates.
- 5. Imbalance between front and back office resources.

Mitigation measures:

- JBDC pivoted its offerings and commenced online sessions to continuously provide support to MSMEs.
- An online strategy was developed to promote the ecommerce platform.
- The training plan will be modified by Q2.

Mitigating Measure 1: Efforts will continue to be made to contain expenditure within budget.

Mitigating Measure 2: With opening up of the economy since June, we anticipate an increase in this area.

Mitigating Measure 3: Continue to provide in-kind support (via discounts on the cost of some services and other technical support) to Export Max beneficiaries and await communication from JAMPRO regarding the cash support.

Mitigation for EXIM Bank

- 1. Ongoing discussions with the Ministry of Finance re additional source of funds.
- 2. Manage (foreign currency) assets and liabilities to offset volatility in currency value where possible.
- 3. Continue technology projects and shared services to reduce back office expenses.

|----------|-----------------------|--------|--------------|-------------|
| Results | | Target | 2020 | Performance |
| | | | Target | |

The Government on April 15, 2020, imposed a 24 hours curfew on the parish of St. Catherine which ended on April 30, 2020. The Curfew lasted until April 30, 2020 which impacted staff of the department. The announcement was sudden which allowed no time for strategies to be planned to mitigate the impact on the Department. As a result, a number of planned task were not achieved and the target for the Department will again be revised taking into consideration the continuous restriction imposed to mitigate the spread of the virus.

The COVID-19 has negatively impacted the Strategic and Operational Targets for the Directorate regarding the number of applications submitted and the number of applicants coming into our office to submit applications and requesting information and the processing of registrations has also been affected.

There are a total of 126 Patent files at the Attorney General's Chambers; 55 files for the recommendation of grant and 71 files for the recommendation of the examiner

The documentation to enable Jamaica acceding to the Patent Cooperation Treaty and the Hague System for the International Registration of Industrial Designs Treaty is being prepared by the Ministry of Foreign Affairs & Foreign Trade. Once the accession to these Treaties has been completed, the Patents and Designs Act, 2020 will come into operation.

The targets for the automation process was based on 4 persons digitizing, we had one person in April with a second joining in May due to the IDB regulations. The process was also hampered by the Work from Home directive arising from COVID19 pandemic

Mitigation measures:

Steps in Light of Covid-19.

- High touch service areas sanitized three (3) times per day.
- Visitors are sanitized up on entry.
- Social distancing is practice at the front desk and in the guess waiting area.
- Implement and encourage staff to take advantage on the work from home policy.
- Remote meetings are encouraged.
- Drop off box put in put to facilitate collection of mails.
- Masks are made available to staff upon request.

2.4 Consumer and Public Protection

This programme aims to stimulate economic growth through the promotion of an enabling business environment. A key component of such an environment is ensuring adequate monitoring of the regulations governing agriculture, commerce and trade that promote safe food as well as fair and ethical business practices.

To promote such a business environment, this programme has a mandate to monitor commerce and trade, protect and empower both consumers and corporate entities, and ensure the protection of the overall public against misuse and improper disposal of nuclear technologies.

PROGRAMME OBJECTIVE: To increase by at least 5% the consumer confidence index for Jamaican products and

services by 2024

SUB-PROGRAMME: (1) Protection of Consumer Rights

(2) Regulation of nuclear technologies

ISSUES

- 1. COVID 19 pandemic has posed challenges for conducting routine functions and activities in accordance with regulations.
- 2. SCF which is usually budgeted to contribute 78-80% of cash inflows to fund the organization's expenses has been steadily declining. Ability to cover salary and related expenses are at risk
- 3. Jamaica Agro Processors Association filed complaints of unscrupulous practices seen in the ackee industry
- 4. Integrity of Petrojam/BSJ laboratory testing is being questioned by Rubis Energy Jamaica Ltd.
- 5. Complaint from JMEA members alleging that imported tissue non-compliant with standard
- 6. Approved Estimates for FY 2020/21 was reduced from \$143.823M to \$135.905M.
- 7. The expenditure shortfall of \$1.402M represents committed funds for goods and services to be provided.

- 1. A risk based approach has been employed for inspections, and critically important services are now being prioritized.
- 2. A cap has been placed on miles/km travelled per month by travelling officers. Income generation committee established to review operations for financial opportunities
- 3. Fees for chargeable services are being reviewed
- 4. Charging penalty fees for non-compliance with regulations being explored
- 5. Training programmes via free webinars being identified
- 6. All ackee processors are now being monitored at a high frequency a minimum of once per month
- 7. Meeting to be held with Petrojam/BSJ to assess validity of complaints from Rubis Energy Jamaica Ltd

- -The COVID19 global pandemic limited the Authority's sensitization, monitoring and surveillance activities, impacting negatively on the targets.
- -Infrastructural Challenges (office space constraints); MOU with the Bureau of Standards not yet in place.
- -HR challenges: Post of Research and Quality Assurance yet to be filled. HR and Finance support functions required. One (1) additional Technical Officer required for processing of applications in the Authorization Unit.

- -The Authority increased remote engagements, using various online platforms for sensitization activities and in some cases follow-up inspections by virtual means.
- -The Authority has maintained communications with the BSJ for the allocation of additional office space as well as the finalizing of a memorandum of understanding (MOU) in relation to the services provided to the Authority. HSRA Board continues to make representation to facilitate the relocation of the Authority into more adequate accommodation.
- -Interviews were conducted for the post of Director, Research and Quality Assurance however, there was no successful candidate. The Acting Senior Director, Radiation & Safety continues to lead the Quality Assurance activities in the implementation of ISO 9001:2015. There is increased thrust at the Senior Executive level of the

2.5 Trade Development and Promotion

International trade supported by foreign and local investment has a significant contributor to national development. This programme aims to foster an enabling environment for commerce and continuous economic growth through trade advocacy and investment promotion. The dual nature of this programme seeks to; facilitate a cohesive, coordinated and seamless approach to promoting trade development by strengthening the export capabilities of small and medium sized enterprises to enter the global business arena; supported by investment strategies designed to create awareness of Jamaican products and services among potential local, regional and foreign investors and to increase foreign direct investment in the Jamaican economy.

PROGRAMME OBJECTIVE: To increase investment, by 75%, into the Jamaican economy by 2024

SUB-PROGRAMME: (1) Trade Facilitation

(2) Investment Facilitation and Promotion

BUDGET: \$997.5M (Recurrent) EXPENDITURE TO DATE: \$243.6M (25%)

| | | | | |

Constraints:

- Possibility of fraudulent Used Motor Vehicle Pre-shipment Inspection (PSI) certificates.
- Since COVID19, increased attacks on GoJ information technology infrastructure

Mitigation measures:

- TBL checks PSI certificates presented against the electronic database of the PSI service provider Autoterminal Japan Ltd. (ATJ).
- Increased vigilance and rapid response.

Constraints:

- The 18% shortfall against budget was due to a delay in contracting for some computers for the Montego Bay Freezone Incubator planned for June. Contract signing is imminent and payment is expected to be effected July as the computers are already in island.
- Based on advice from the IDB, the Global Services Sector Information Portal (GSSIP) implementation was
 rescheduled to 2021 and the Project had engaged eGov to develop a functional requirement documents for
 the GSSIP.
- Reduction in the GSS Project's budget will result in a delay in the implementation of some activities.
- Due to pandemic situation relating to COVID 19, directives were received by the Executing Agency (EA) to delay the procurement process on Cultural Perception Survey or the impact study until further in the year;
- STATIN was contracted to undertake the data collection exercise of firms operating within the GSS was envisaged to end contract in June 2020. Due to the pandemic, STATIN has requested extension of contract to July 2020 to complete consultancy.

Mitigation measures:

- eGov will be assigning a Business Analyst to the Project to develop the functional requirement documents for the GSSIP
- Bring to the attention of MICAF the additional amounts needed to fully support implementation.
- Frequent discussions with the EA on when to execute this consultancy.
- The Project will extend contract for STATIN to August 2020 which will include the review process by the Executing Agency.

3. Summary Performance of Departments & Public Bodies

All Departments and Public Bodies under the Ministry prepared strategic plans to ensure the vision and mission of the Ministry. Below is their key performance for the 1st Quarter of FY2020/2021 in accordance to the Ministry's strategic objectives:

| Agency: | Jamaica National Agen | Jamaica National Agency for Accreditation (JANAAC) | | | | | |
|---|--|--|---|------------------------------|--|--|--|
| Programme | Trade Promotion and Development | | | | | | |
| Sub-Programme | Trade Facilitation | | | | | | |
| Main Activity | Accreditation | | | | | | |
| Budget | Annual Budget | | Quarterly Budget | | | | |
| | Annual expenditure | | Quarterly Expenditure | | | | |
| Constraints | Total profits to date \$7.16 | 6M which is 18% above e a deficit of approxi | M OFF (revised target) to to the budgeted profits for the mately 34% below projectic COVID-19 pandemic. | period ending June 2020. | | | |
| Mitigation | | Mitigating measures that will be implemented include greater integration of remote assessments for accreditation clients, where possible, and the delivery of virtual training programmes to | | | | | |
| Intended Results | Performance Indicator | Annual Target | April — June 2020 Target | Quarter Performance | | | |
| Increased Earnings from accreditation process | Revenue from Accreditation (J\$) | \$29.7M | \$9,206,749.00 | \$1,354,505.39 OFF | | | |
| | Training Revenue (J\$M) | \$4.3M | \$509,250.00 | \$575,000.00 ON | | | |
| Accreditation increased | Total number of Accreditation Certificates Awarded | - ON | | | | | |
| | Number of Persons Trained | 150 | 25 | 25 ON | | | |

4. New Projects

Export Max III

The programme is aligned to the National Export Strategy (NES) with an overarching goal to create opportunities for local companies to export their goods and services aimed at facilitating the growth of Jamaica's economy. The role of JBDC is to provide capacity building and business monitoring support to MSMEs in preparation for entry or expansion in the international market. Approximately 200 EOIs and 70 applications were submitted to JAMPRO. From this number, 50 businesses were selected and recommendations for final approval submitted to the steering committee, of which JBDC is a member. To date a total of 48 beneficiaries have commenced the project. The following activities were achieved during the reporting period:

- Approximately 43 of 48 beneficiaries assessed
- 34 Enterprise Development Plans have been developed
- 19 Project Action Agreements submitted

Essential Oils Incubator Project

The Government of Jamaica is focused on developing the value chain in agriculture through several initiatives, including increasing the production of herbs, plants and other crops which can contribute to high value products. The Essential Oils Incubator project seeks to establish an incubator with manufacturing capacity for the processing of oil from locally viable plant stock with high demand to supply the aromatherapy and food industries. The creation of the incubator will provide access to capital-intensive manufacturing facilities for entrepreneurs and will provide a platform for market development, training among other support services. To further support the implementation of the project, research is currently ongoing on the nutraceutical and cosmeceutical industries in Jamaica as well as international market data.

Mapping of the Creative & Cultural Industries in Jamaica

The JBDC signed an Operation Alliance Agreement with the British Council to gather important data on the Creative and Cultural Industries (CCI) in Jamaica. The objective of the mapping exercise is to define the creative economy and provide a guide for MSMEs within the industries to identify business opportunities and become investment ready.

- Though the target for the survey have been met (approx. 420 responses received), the Consultants have decided not to close the survey as there was limited data from sectors including Film, Digital Media, Animation, Gifts & Crafts, Festivals, Fairs & Feasts, and Music.
- 2. Due to the delay in implementation, plans are being expanded for the Knowledge Transfer (KT) scope of the project. This is intended to develop further research and capacity development amongst the local CCI partners.
- 3. Consultants will be presenting four (4) JBDC in Concert events to complete their scope activities in the project. The event headings will be as follows:

MINISTRY OF INDUSTRY, COMMERCE, AGRICULTURE & FISHERIES QUARTERLY PERFORMANCE REVIEW REPORT [APRIL - JUNE 2020] | 82

- ✓ CCI Mapping for Stakeholders
- ✓ CCI Mapping for Industry Practitioners
- ✓ Capacity Building for Industry Associations
- ✓ Market Development
- ✓ Digital strategy for internationalization
- 4. The CCI project has been extended to September 2020.

Appendix

Ministry's Divisions and Portfolio Departments & Public Bodies

The Ministry drives its strategic mandate utilizing the following structures:

31 Divisions

Executive and Administrative Divisions: (1) Permanent Secretary, (2) Legal Office, (3)–(5) Chief Technical Directors, (6)Internal Audit, (7) – (8) Principal Directors, (9) Finance, Accounts and Budget, (10) Human Resources Management & Development, (11) Communications & Public Relations, (12) Facilities & Property Management, (13) Information, Communication & Technology, (14) Strategic Planning, Performance Monitoring and Evaluation, (15) Project Management and Coordination, and (16) ISO Quality Management System

2. Technical Divisions:

- O Agriculture & Fisheries (17) Praedial Larceny Prevention Coordination, (18) Agricultural Marketing Information, (19) Economic Planning, (20) Plant Quarantine & Produce Inspection, (21) Public Gardens, (22) Research & Development (R&D), (23) Veterinary Services Division, (24) Agriculture Land Management, (25) Food Storage and Prevention of Infestation Division and Fisheries
- o Industry & Commerce (26) Industry, (27) Commerce, (28) MSME, (29) International Trade.
- Insolvency (30) Office of Government Trustee (OGT) and (31) Office of the Supervisor of Insolvency (OSI)

1 Department (External)

- 1. Department of Cooperatives & Friendly Societies
 - Agricultural Credit Board (absorbed)

31 Agencies

Public Bodies that are partially/fully supported through the Consolidated Fund:

- 1. Agro-Investment Corporation (AIC)
 - Agricultural Development Corporation (ADC)
 - Agricultural Marketing Corporation (AMC)
 - Agricultural Support Services and Productive Projects Fund Limited (ASSPFL)
- 2. Anti- Dumping and Subsidies Commission (ADSC)
- 3. Banana Board
 - Banana Insurance Fund
- 4. Cannabis Licensing Authority (CLA)
- 5. Consumer Affairs Commission (CAC)
- 6. Fair Trading Commission (FTC)
- 7. Hazardous Substances Regulatory Authority (HSRA)

- 8. Jamaica 4-H
- 9. Jamaica Agricultural Society (JAS)
- 10. Jamaica Business Development Corporation (JBDC)
- 11. Jamaica Dairy Development Board (JDDB)
- 12. Jamaica Exotics Flavour Essence (JEFE)
- 13. Jamaica Intellectual Property Office (JIPO)
- 14. Jamaica Promotions Corporation (JAMPRO)
- 15. Jamaica Agricultural Commodities Regulatory Authority (JACRA)
 - Cocoa Industry Board
 - Coconut Industry Board (Regulatory functions only)
 - Coffee Industry Board
 - Export Division
- 16. National Irrigation Commission (NIC)
- 17. Rural Agricultural Development Authority
- 18. Trade Board Limited

Public Bodies that are not supported through the Consolidated Fund

- 19. Bureau of Standards Jamaica (BSJ)
- 20. Coconut Industry Board
- 21. Companies Office of Jamaica (COJ)
- 22. EXIM Bank Limited
- 23. Fisheries Management Fund
- 24. Jamaica Commodity Trading Company (JCTC)
- 25. Jamaica National Agency for Accreditation (JANAAC)
- 26. Jamaica Veterinary Board
- 27. Micro Investment Development Agency (MIDA)
- 28. National Compliance and Regulation Authority (NCRA)
- 29. SCJ Holding Ltd.
 - Sugar Commodity of Jamaica (SCJ) Legacy
- 30. Self-Start Fund
- 31. Sugar Industry Authority (including Sugar Industry Research Institute)

Additionally, the Ministry implements **eleven (11) Public Investment Projects** to focus on critical priority areas. These are

1. Agricultural Competiveness Programme Bridging Project - (ACPBP)

The ACPBP is designed and implemented to facilitate the placement of Jamaica in a competitive position that will provide solutions to the structural challenges that are confronted by the local agriculture sector whilst at the same time providing an opportunity and laying a solid foundation to fully exploit the market potential which exist for Jamaican fresh produce, locally and internationally. To achieve these objectives, the following components are being financed by the project:

- 1. The Development of the Spring Gardens Agro Park;
- 2. Enhance the capacity of MICAF's departments and Agencies;
- 3. Agri-business Value Chain Development and Financial Modeling
 - a. Strawberry Industry Development

- b. Development of the Mango Industry;
- c. Staffing the Programme Implementing Unit (PIU) and Key Experts for the project's implementation

2. Essex Valley Agriculture Development Project (EVADP)

The project will supply irrigation water to over 700 hectares of farmlands in Essex Valley, positively impacting the livelihoods of over 700 farmers. The major components under EVADP are: Improved Irrigation Systems, Enhanced Agriculture Production, Marketing Facilities and Systems, Energy Efficiency/Renewable energy and Technical Assistance.

3. Farm Roads Project

This project aims to provide improved direct access to an estimated 11,506 farmer's island wide for the "Farms to market" transportation of farm produce, while also catering to the commute for the general public and the surrounding communities. This project is being implemented by the Rural Agricultural Development Authority, main provider of agricultural extension service for the Ministry.

4. <u>Feasibility Studies for GOJ Public Investment Projects (Pedro Plains Feasibility and Preliminary Design Studies)</u>

The conduct of a Feasibility Study and Design for the expansion of the Pedro Plains Irrigation System utilizing surface flows from the Black River. The Feasibility Study will seek to present three (3) comprehensive alternative developmental scenarios of hydraulic development for the identified project area in the context of the environment impact and assessment and prepare engineering designs of the chosen developmental scenario.

The command area comprises 10,458 hectares and it is expected to increase the area under irrigated agriculture by approximately 1,450 ha. The project seeks to address the threat of saline intrusion from over pumping the aquifer and is expected to generate a surplus of water supply that will be available to satisfy expanded demand for domestic, tourism and agricultural purposes in the area.

Funding of the Feasibility Study will be done through FASEP (Fonds d'etude et d'Aide au Secteur Prive) which is a French fund designed to benefit developing countries, in particular emerging markets, with French industrial know- how and engineering.

5. Global Services Skills (GSS) Project

To promote the growth of the Global Services Sector (GSS) in Jamaica particularly in higher value-added segments. Specially, it intends to: Provide the sector with better skilled workers and increase Jamaica's institutional capacity to attract Foreign Direct Investment (FDI) and increase its exports. This project has two components: (1) Skills Development for Global Services Sector and Strengthening of the Skills Development System and (2) Strengthening Jamaica's institutional capacity to increase investment and promote exports in the Global Services Sector

6. **Production Incentives Programme**

This project aims to support farmers within the Long Pond and Hampden sugar-growing areas with the transportation of harvested canes to factories in St. Catherine, Westmoreland and St. Elizabeth as well as to mitigate the effects of drought conditions on agricultural production in drought-prone parishes. This project is being implemented by the Rural Agricultural Development Authority, main provider of agricultural extension service for the Ministry

7. <u>Promoting Community Based Climate Resilience in the Fisheries Sector</u>

This project aims to support Jamaica in the preparation of the initiative Promoting Community Based Climate Resilience in the Fisheries Sector, which aims to enhance community-based climate resilience among targeted fishing and fish farming communities. This will include Robust and climate-smart fisheries policy and regulatory framework; • Reduced vulnerability of the targeted fishing and fish farming communities to climate shocks; • Diversified and strengthened livelihoods of targeted artisanal fishers and fish farmers.

8. Rehabilitation of Research Centres

To rehabilitate selected facilities at the Bodles Research Station which impact directly the level of support given to farmers. This will include Rehabilitation of offices, residences and sanitary facilities; • Overhaul of security systems; • Construction of dairy cattle barn; • Design of a new piggery; • Upgrade of irrigation system and solid waste disposal system; • Renovation of Bio-Control Laboratory; • Construction of Aeroponics/hydroponics system; • Rehabilitation of crop research and customer service offices; and • Capacity building and institutional strengthening.

9. Rehabilitation of Irrigation Infrastructure- National Irrigation Commission

To reduce water losses and operational costs in select irrigation systems in St. Catherine and Clarendon. This will include the commencement of the following works in the Mid-Clarendon Irrigation System: • Replace 528 lengths of 18 inch pipeline on the Parnassus canal line; • Repair 10,560 feet of damaged canals on the Old Milk River canal line.

10. South Plains Agricultural Development (SPAD) Project

To assist in the achievement of food security and the modernization of the agricultural sector through the construction of wells and the development of associated agricultural infrastructure in the arable areas. This will include development of lands • Construction of access roads; • Construction of pump house and well drilling • Development of irrigation infrastructure.

11. South Plains Agricultural Development Feasibility Studies Project

The project seeks to increase the areas under irrigation in keeping with the mandate of the NIC. Its main focus is to improve the irrigation system and associated production, marketing facilities - Agro Park in the targeted sites of Bernard Lodge, Amity Hall/Bridge Pen and Parnassus.

In addition, the NIC is coordinating with other agencies, notably AIC and SCJH under MICAF to deliver on land allocation and development objectives. SCCADP is funded through a grant of approx. £17.5 million from the United Kingdom Caribbean Infrastructure Funds (UK-CIF), administered by the Caribbean Development Bank (CDB). Three (3) parcels totalling 795 hectares have been selected for this project.

Legislations

| # | 2020/2021 Priority Legislations | Impact | |
|----|---|---|--|
| 1. | Modernization of Intellectual Property Act: The Trade Marks Act and Rules When passed it will significantly fulfil Jamaica's obligations as a party to the Paris Convention for the Protection of Industrial Property and will reflect the requirements of the Agreement on the Trade Related Aspects of Intellectual Property and the Bilateral Agreement between Jamaica and the United States of America. | Increase trade competitiveness of Jamaican products and services | |
| 2. | The Agro-Investment Corporation (Amendment) Bill The amendment to the Act is to provide for the management of a pool of funds, inter alia, and any other provisions required in order to empower the Agro-Investment Corporation to perform the functions presently undertaken by the Agricultural Support Services and Productive Projects Fund Limited. The amendment to the Act seeks to also increase the complement of the Board to a minimum of six and a maximum of twelve members and to provide for the qualifications of members of the Board to include proficiency in matters relating to property management, procurement, accounting and auditing. | Empowerment of the Agro-Investment Corporation to perform mandate of increase investments in the agricultural sector. More comprehensive management framework of agricultural resources. | |
| 3. | The Companies (Amendment) Act | agricorcorarresources. | |

Legislations passed or to pass in 2019/20:

- 4. The Food Storage and Prevention of Infestation (Amendment) Act and Regulations, 2019
- 5. The Nuclear Safety and Radiation Protection Regulations, 2019
- 6. Fisheries Act 2018
- 7. Protection of Plant Genetics for Food and Agriculture (Amendment) Act 2019
- 8. The Patents and Design Bill 2020

Legislation being worked on:

- 9. Amendment of the Animals (Diseases and Importation) Act
- 10. Amendment to the Registration of Business Name Act
- 11. Amendments to the Security Interest and Personal Property Act
- 12. The Charities Regulation
- 13. The Co-operative Societies (Amendment) Bill
- 14. The Copyright (Licensing Bodies) Regulations
- 15. The Customs Duties (Dumping and Subsidies) (Amendment) Act

- 16. The Dangerous Drugs (Cannabis Import and Export Licensing) Regulations, 2019
- 17. The Fair Competition Act
- 18. Financial Institutions Regulation Bill
- 19. The Fishing Industry (Amendment) Regulations, The Fishing Industry (Conservation of Conch (Genus Strombus)) (Amendment) Regulations and The Fishing Industry (Spiny Lobster) (Amendment) Regulations
- 20. The Jamaica Promotions Corporation (Amendment) Bill
- 21. Legislation for a modified insolvency framework applicable for financial institutions
- 22. The Motor Vehicle Import Regulations/Order
- 23. The National Compliance and Regulatory Authority Act and related Legislations
- 24. The Protection of New Plant Varieties Bill
- 25. Repeal of the Agricultural Marketing Act
- 26. Repeal of the Tobacco Industry Regulation Act
- 27. The Scrap Metal Act
- 28. The Security Interest in Personal Property Act
- 29. Veterinary (Amendment) Bill

Cabinet Submissions for the approval of developing/amending legislations:

- 1. Registration of Business Name Act
- 2. Creating a framework for Merger Regime under the Fair Competition Act
- Merger of the Fair-Trading Commission and the Consumer Affairs Commission- The Jamaica Consumer Protection and Competition Commission Act
- 4. Amendment to the Companies Act to facilitate Global Forum requirements
- 5. Amendments to the Consumer Protection Act to incorporate provisions of the CARICOM Model Consumer Protection Bilge
- 6. Jamaica's Accession/ Ratification to the International Atomic Energy Agency (IAEA) Conventions
- 7. Accession to the Marrakesh Treaty Copyright (Amendment) Act
